

Canada's Top AI Reputation Management Platform

WEBSITE REVIEW WIDGET

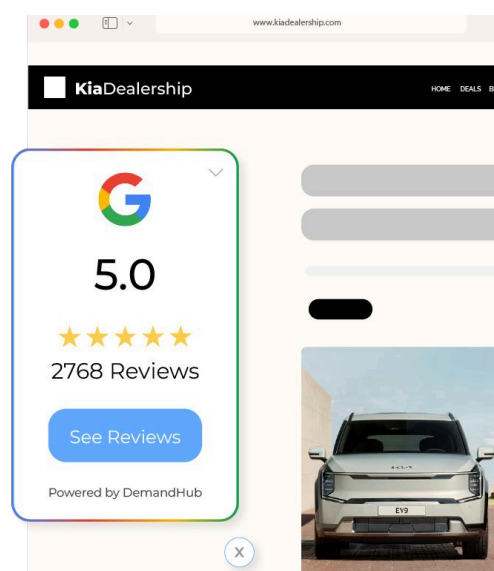

Our powerful interactive website widget allows you to display only your best customer reviews directly on your website. This reduces the likelihood of customers exploring competitor options.

CENTRALIZED REVIEW DASHBOARD

Say goodbye to juggling multiple review websites! With our centralized review dashboard, you can seamlessly monitor and manage all your reviews across platforms in one convenient place.

REPUTATION MANAGEMENT

DemandHub grows dealerships' online reputation through its AI-powered platform. The software collects authentic reviews across multiple review sites utilizing personalized text messages that are automatically sent to customers following a vehicle sale or service appointment, helping to boost your online reputation organically.

AUTOMATED & AI-POWERED REVIEW RESPONSES

DemandHub's AI-powered review responder can post a tailored response to each review, saving you time and eliminating the need to manage reviews individually. The software simplifies review replies with fully automated responses based on pre-approved templates. You also have the option to leave personalized replies should you wish and can leverage the "Generate AI Reply" feature to draft responses quickly and easily!
